

Pediatric Global POCUS Webinar Series 2020-2021

The goal of this lecture series is to augment Point-of-Care Ultrasound (POCUS) training that Pediatric Emergency Medicine fellows receive in their home institution. Specifically, we aim to increase opportunities for PEM fellows who have interest in/practice in global settings to:

1. Become familiar with pathology and disease presentations relevant to practice in specific tropical and/or resource-constrained settings
2. Demonstrate ability to interpret abnormal E-FAST and Cardiac studies specifically related to the above pathology
3. Review literature in the field of POCUS related to global health practice

Topics to be presented:

1. Tuberculosis
2. Rheumatic Heart Disease
3. Malnutrition
4. Malaria
5. Dengue
6. Shock
7. Portable devices in Global Health
8. Program development

Sessions will be held online every 6-8 weeks via zoom.

Moderators:

Liliana Morales Pérez
MD, MPH

Beth D'Amico
MD
